

JDSU SELECTS LOGICALAPPS TO MEET COMPLIANCE REQUIREMENTS

Irvine, CA - January 31, 2007 - LogicalApps, the provider of embedded governance software for enterprise applications, today announced that JDSU (NASDAQ: JDSU; and TSX: JDU) has selected ACTIVE Governance™ solution to automate internal controls and manage its Sarbanes-Oxley compliance requirements.

JDSU is committed to enabling broadband & optical innovation in the communications, commercial and consumer markets. JDSU is a leading provider of communications test and measurement solutions and optical products for telecommunications service providers, cable operators, and network equipment manufacturers. Furthermore, JDSU is a leading provider of innovative optical solutions for medical/environmental instrumentation, semiconductor processing, display, brand authentication, aerospace, defense and decorative applications.

ACTIVE Governance™ is the first solution to embed governance policies and processes directly into the Oracle E-Business Suite. Delivering more than simple documentation and monitoring of controls, ACTIVE Governance prevents control violations from happening by automatically enforcing governance policies in real time. By reducing risks and tracking data and configuration changes, ACTIVE Governance is the only governance software that enables better business processes resulting in greater efficiency and improved financial integrity.

"By improving processes and control effectiveness, ACTIVE Governance is helping leading companies like JDSU leverage their compliance investments and realize better business results," said Chris Capdevila, CEO of LogicalApps.

About LogicalApps

LogicalApps provides embedded governance software for enterprise applications. The company's solutions enable organizations to manage risk, achieve compliance, and reduce costs by automating real-time monitoring and enforcement of detective and preventive controls. Using the LogicalApps solutions, business processes execute at optimal efficiency with increased integrity, improving overall company performance. Founded in 2000, LogicalApps, privately-held with headquarters in Irvine, California, has more than 150 blue-chip customers. For more information visit: www.logicalapps.com.
